## **Policy on the use of Artificial Intelligence-generated Images/Pixels in FCC Photography Competitions**

Images, parts of images or pixels generated by software programs or cameras are **NOT** permitted in any FCC photography competition. Anyone not complying with this policy will be counselled and may be banned from FCC competitions for up to three years. Note: The use of editing tools (such as the Clone Stamp Tool or Selection Tools in Photoshop or Lightroom) which duplicate or alter a photograph's existing pixels and do not add any new, AI-generated elements are permitted. Given the rapidly changing AI technology, the FCC will keep a watch on developments and make future revisions if necessary.
